Hi Folks,
Thanks so much for taking the time to talk to us yesterday - your comments and suggestions were very helpful. As promised, attached is the latest version of State Park's Particulate Matter Reduction Plan, as well as my letter to them describing our concerns with the plan and the process to date, and an attached comment letter from our consultant. I've also provided a link to all our studies and related info on our website. I'd like to talk to you again in the next week or so after you've had a chance to look at this info and we've had a chance to further discuss some of the options you've presented. In the meantime, please give me a call if you have any questions or need additional info on this.

Thanks again, and we look forward to talking to you again soon.

Larry

Subject: Off highway vehicles

Hi Larry. Debbie Jordan asked Michael and I to see if you want to talk about OHVs. I've been EPA's general lead on the OHV requirements in Imperial's dust rules and Michael's familiar with your monitoring issues. I'm available this afternoon before 3:00, and we're both generally available tomorrow afternoon. Let us know if you'd like us to call you at one of these or another time.

Andy Steckel
